

Add and customize gadgets

Gadgets display summaries of team progress, reports, and other data from Jira projects and issues a dashboard. You can customize gadgets to display project and issue details relevant to particular users. You can see the list of gadgets [here](#).

How to add a gadget to a dashboard

Before you begin

- Make sure you're logged in as a Jira admin.
- Some applications allow dashboards that are shared by groups of people. If you have permission to update a shared dashboard, the other people sharing the dashboard will see your changes, too.

Follow these steps to add a gadget to a dashboard:

1. Go to the dashboard by selecting the **Dashboards** link in the navigation bar.
2. On the dashboard, Click **Add Gadget**.
3. Use the gadget wizard to choose the gadgets you want to add. You can see a list of these gadgets in [Using dashboard gadgets](#).
