

XP and the Mark IV Coffee Maker

There has been some discussion on the project and to schedule a release date. The comp object moderated of how Extreme experiments will allow us to make estimations Programming (XP) would design a solution to with confidence.

Bob Martin's Mark IV Coffee Maker example. Some of us will go [meet_with_the](#) hardware people now. Mean while, some of us will help the Fictitious Advanced Product Design Department (FAPDD) [create_user](#) achieve.

The first phase of any XP project is to [stories](#), and some of us will work on a [unit](#) gather [user_stories](#) and conduct some [testing_framework](#) and then [a_spike_solution](#) experiments. The stories will be used to estimate.
