Roll your work up to bigger goals

COMPARE ROADMAPS

Advanced

Basic

Ladder work from multiple teams or projects up to a feature or goal with unlimited levels of hierarchy above the epic level.

The screenshot shows the Jira Roadmap interface for the "Travel Booking Division". On the left, there's a sidebar for "Hierarchy" with options like "Initiative", "Story", and "Sub-task". The main area displays a grid of items with columns for "Status", "Team", "Start date", and "Due date". A horizontal timeline at the top shows dates from Mar 2 to May. A vertical dashed line marks March 16. Several items are shown as bars: "INI-4 Holiday packages" (In Progress, iOS team, 25/Feb/20 - 16/May/20), "EPI-10 Seasonal pack" (Done, Brand, 18/Feb/20 - 16/Mar/20), "EPI-11 Family holidays" (In Progress, Experience, 9/Mar/20 - 3/Apr/20), "STO-14 As a user I want..." (Done, Experience, 9/Mar/20 - 16/Mar/20), "STO-16 As a user I want..." (Done, Experience, 12/Mar/20 - 19/Mar/20), "STO-17 As a user I want..." (In Progress, Experience, 17/Mar/20 - 24/Mar/20), and "STO-18 As a user I want..." (To Do, Experience, 24/Mar/20 - 1/Apr/20).

Track the big picture

COMPARE ROADMAPS

Advanced

Basic

Plan and track how you're making progress on the big picture **across multiple teams**.

This screenshot shows the Jira Roadmap interface with multiple teams: "Android Team" and "iOS Team". The "Android Team" section lists several epics and their sub-tasks, each with a status, start date, and due date. The "iOS Team" section also lists some epics. A horizontal timeline at the top shows dates from Mar 2 to May. A vertical dashed line marks March 16. The "Android Team" section includes epics like "ADR-104 App basics - Android" (In Progress, 25/Feb/20 - 23/Mar/20), "ADR-401 As a user I can log..." (In Progress, 10/Mar/20 - 23/Mar/20), "ADR-402 As a user I access..." (In Progress, 10/Mar/20 - 23/Mar/20), "ADR-403 Implement booking..." (Done, 10/Mar/20 - 23/Mar/20), "ADR-105 Invite and share" (To Do, 25/Mar/20 - 20/Apr/20), "ADR-107 Adapt apps to new pa..." (To Do, 20/Apr/20 - 16/May/20), and "ADR-424 Adapt Android app..." (To Do, 20/Apr/20 - 04/May/20). The "iOS Team" section includes "IOS-543 Social media integration" (In Progress, 25/Feb/20 - 23/Mar/20).

This screenshot shows a detailed view of tasks and dependencies. It includes a "Create issue" button and a table with columns for "Type", "Issue", "Status", "Assignee", and "Lead time". The table lists items like "asics - Android" (In Progress, 25/Feb/20 - 23/Mar/20), "a user I can log..." (In Progress, 10/Mar/20 - 23/Mar/20), and "a user I access..." (In Progress, 10/Mar/20 - 23/Mar/20). A horizontal timeline at the top shows dates from Mar 2 to May. A vertical dashed line marks March 16. The table also includes a "FIELDS" row with "Status", "Start date", and "Due date".

Get ahead of dependencies

COMPARE ROADMAPS

A screenshot of a dependency management interface. It lists various items with their status (e.g., Blocks, TO DO), due dates (e.g., +7 days, +14 days), and blockers. A modal window is open, showing dependencies for item ADR-401, specifically listing 'Trip destination selection - single...' and 'List existing trips'.

Advanced

Basic

Track dependencies across multiple teams and projects to get ahead of dependencies and blockers across your organization.

Plan with team capacity in mind

Advanced only

Keep your goals on track by accounting for whether your teams have bandwidth to complete the work they've scoped. See multiple teams' capacity on a sprint by sprint basis.

A screenshot of a roadmap interface showing multiple scenario tracks. The tracks represent different project timelines and progress levels (Best case, Worst case, etc.). The roadmap shows sprints from Sprint 9 to Sprint 12, with various tasks assigned to specific dates and progress markers.

Envision different scenarios

Advanced only

Create multiple versions of your roadmap to account for different options or best and worst case scenarios. Paint a more complete picture of the potential options and outcomes.

AS PART OF ALL ROADMAPS

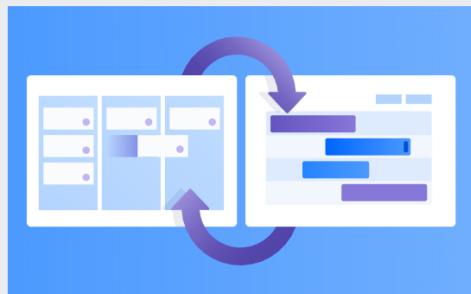

Keep your teams and organization in sync

Share your roadmaps

Smart filters ensure you can always share the right view of your roadmap for every stakeholder.
